

30

Constant Difference

$61 - 34$

$61 - 34 = 27$

$54 - 27$

$54 - 27 = 27$

$71 - 44$

$71 - 44 = 27$

$57 - 30$

$57 - 30 = 27$

$70 - 43$

$70 - 43 = 27$

$17.2 - 8.9$

$17.2 - 8.9 = 8.3$

Constant Difference Strategy

- Create an equivalent problem that is easier to solve by shifting each of the numbers by the same amount.
